

July School Holidays

AAC Users Support Program

This program supports students who use **Augmentative or Alternative Communication (AAC)** methods to connect and engage with other peers.

The AAC program uses adult and peer modelling to create meaningful social connections between participants. The session provides the opportunity for clients to grow in confidence using their communication system and watch others use one too.

The sessions will involve demonstrating the use of communication systems for social functions. Students will be supported to share their thoughts and preferences in a patient and understanding environment.

Facilitators will support exploration of new vocabulary and phrases that encourage connection and collaboration.

Family Support: Our program includes a parent session on day one, a phone call after the program has ended and a written summary report.

Funding: NDIS funding and Private funding can be used. Medicare funding cannot be used for group sessions.

Next Steps: For enquiries or to **register for this group** click [here](#), scan the QR code or call our clinic on **03 9890 1062**.
