This group is designed for children aged 5-11 years and led by our skilled Speech Pathologist and Occupational Therapist to provide fun, hands-on activities that support:

- Receptive and expressive language skills
- Social interactions such as turn-taking, sharing, and group participation
- Fine motor development through cutting, drawing, and crafting
- Confidence building and self-expression

The session offers a supportive environment where children can explore their creativity, connect with peers, and strengthen communication and motor skills—all while having fun.
