

September School Holidays

Making Play Mates 3-5 years

Group programs are a great way to boost your child's therapy participation during the school holidays while also having fun, learning new skills and making friends.

This program is an introduction to exploring how our individual feelings and actions impact those around us.

These sessions provide opportunities for children to share play space with others, share and observe ideas/preferences and collaborate with others in play. Children will be supported to advocate for their individual needs to be met for the purposes of play, emotional and self-regulation, and basic wants and needs.

We draw on evidence-informed intervention from Social Communication Intervention Program, Hanen, Talkability Program, DIR®/Floortime™ and Secret Agent Society Visual supports.

Family Support: Our program includes a parent session on day one, a phone call after the program has ended and a written summary report.

Funding: NDIS funding and Private funding can be used. Medicare funding cannot be used for group sessions.
