

Steps to School Success

Help your child build confidence and independence for “Big School” with ESA

With the support of our allied health therapists our Steps to School Success program focuses on the following goals:

- **Fine motor skills** drawing, writing, cutting
- **Gross motor skills** sitting posture, core strength
- **Preparing for routines**
- **Emotional regulation** such as coping with frustration
- **Learning skills** attention, following instructions, memory, play
- **Social interaction** making friends, turn-taking, communication

The program includes a brief summary report and follow ups with caregivers. NDIS funding can be used for this program.
